

SHRED.

SNOW | 2024 - 2025 | PERFORMANCE ENHANCING EYEWEAR, HELMETS, AND PROTECTION

"I needed better products so I could take my performance to a higher level, and I needed them to look as good as they performed. In 2006, we launched SHRED. and created our own performance enhancing goggle and protection technologies for skiers, snowboarders, and mountain bikers. Today our commitment to innovation is stronger than ever and we keep pioneering revolutionary technology that boosts confidence, enhances performance, helps you have more fun on the mountain, and unlocks your inner pro. We have emerged as a market leader, building the products of our dreams that contributed to 15 Olympics medals and collected thousands of five star reviews from our customers while proudly maintaining our underdog status. Come SHRED. with us."

**Ted Ligety | 2x Olympic Gold Medalist
| 5x World Champion | SHRED. Co-
founder, Chairman, and Chief Brand
Officer.**

WE ARE INNOVATORS

In 17 years we amassed an amount of innovation that is unique in our space. Technology developed to deliver performance that matters.

⊖ LINEAR IMPACT PROTECTION

⊙ ROTATIONAL IMPACT PROTECTION

SHRED. MINIMAL PACKAGING

Pioneering responsible packaging, SHRED. eliminated plastic from our goggle and helmet packaging in 2020, leading the industry towards more responsible practices. Our proactive stance continues with joining the Responsible Packaging Movement and switching to FSC-certified paper in 2023, setting new standards for our category.

SHRED. RECYCLED GOGGLE STRAP LINE.

In 2021, SHRED. led the way by crafting the first goggle straps from recycled plastic bottles. A true innovation in the category, these straps were later worn by every SHRED. athlete at the Beijing 2022 Olympics. Our commitment to this sustainable approach keeps growing, with almost all our goggles now featuring these eco-friendly straps.

GOGGLES TECHNOLOGY

SHRED. PERFORMANCE ENHANCING GOGGLES

SHRED.wide™

Engineered for an expansive field of view, our goggles employ a unique functional frame design. This approach ensures a vast and uninhibited visual range across all SHRED. goggle models, providing top-quality, undistorted vision in every direction.

CONTRAST BOOSTING LENS™ 2.0

Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from:

- > ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS
- > GLACIER to DEFEAT GLARE in Late Spring/Summer
- > NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light

At SHRED., we dismiss gimmicks and tricks, focusing solely on genuine performance enhancement. Our technologies are crafted for no other reason other than to make you the hero on the slopes. STOP messing with lenses. STOP messing with goggles. Empower Your Vision, Become the Pro.

CONTRAST BOOSTING LENS™ 2.0 SYSTEM

365/24/7. 3 (three) lenses.
All-year. All-day performance.
No confusion.
Just clarity.

SHRED.

Are you searching for the best performing ski and snowboard goggle that defeats FLAT LIGHT while providing the widest field of vision in the game and a distinctive, sleek, and frameless cylindrical lens style? If so, SHRED. Gratify is your best choice. It offers superior fit and comfort and features our revolutionary CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0)* technology to DEFEAT FLAT LIGHT and greatly enhance vision performance in ALL weather and light conditions. Combined with NODISTORTION™ technology, it maintains perfect image clarity and eliminates optical distortion at all altitudes. The SHRED.wide™ design ensures a maximized field of view, allowing you to see more of the mountain and its terrain. Boost your confidence and performance for endless fun up and down the mountains. SHRED. Gratify is compatible with most prescription glasses (OTG).

*Available in select models. Other models feature our original Contrast Boosting Lens™ (CBL), designed to enhance contrast and image definition compared with traditional lenses.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ 2.0 | Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from: ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS, GLACIER to DEFEAT GLARE in Late Spring/Summer, NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light.

*Select models only. Others feature original CBL™ for enhanced contrast and clarity.

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change..

SHRED. OTG | Designed to provide compatibility and comfort with prescription glasses.

SHRED. NOCLOG™ | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

TECH SPECS:

LENS | Ultra-high-optical-precision molded, cylindrical double lenses with tapered thickness to optimize vision at all angles and enhance impact protection. | 100% UVA-UVB-UVC protection | Super Anti-Fog

FRAME | Width: 170 mm | Height: 100 mm

STRAP | Width: 50 mm | Triple silicone line backing | 2-point slide adjustment system

WEIGHT | 140 g

SUGGESTED FIT | S to L helmet size

IN THE BOX:

1 pair of SHRED. Gratify goggles | 1 SHRED. goggle soft case

SHRED. goggles packaging is 100% plastic free

VLT% IMPORTANT NOTICE | VLT% doesn't fully capture the human eye's experience with SHRED. Contrast Boosting Lens™ 2.0 Technologies. Unlike the human eye, it misses how the lens's polarization filter cuts glare and how the contrast enhancing formulations boost clarity and vision.

EXEMPLIFY

If you're looking for the widest field of vision ever engineered in a ski and snowboard goggle that offers a smaller or universal fit—while also providing unrivaled comfort, a very clean and almost frameless design, seamless compatibility with any helmet, and a lens that defeats flat light—then the SHRED. Exemplify is the goggle for you. The Exemplify features our revolutionary CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0)* technology to DEFEAT FLAT LIGHT and greatly enhance vision performance in ALL weather and light conditions. Combined with NODISTORTION™ technology, it maintains perfect image clarity and eliminates optical distortion at all altitudes. The SHRED.wide™ design maximizes the field of view, boosting your confidence, performance, style, and fun. The SHRED. Exemplify is compatible with most prescription glasses (OTG).

*Available in select models. Other models feature our original Contrast Boosting Lens™ (CBL), designed to enhance contrast and image definition compared with traditional lenses.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ 2.0 | Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from: ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS, GLACIER to DEFEAT GLARE in Late Spring/Summer, NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light.

*Select models only. Others feature original CBL™ for enhanced contrast and clarity.

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change..

SHRED. OTG | Designed to provide compatibility and comfort with prescription glasses.

SHRED. NOCLOG™ | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

TECH SPECS:

LENS | Ultra-high-optical-precision molded, spherical double lens with tapered thickness to optimize vision at all angles and enhance impact protection. | 100% UVA-UVB-UVC protection | Super Anti-Fog

FRAME | Width: 180 mm | Height: 100 mm

STRAP | Width: 40 mm | Triple silicone line backing | 2-point slide adjustment system

WEIGHT | 135 g

IN THE BOX:

1 pair of SHRED. Exemplify goggles | 1 SHRED. goggle soft case

SHRED. goggles packaging is 100% plastic free

VLT% IMPORTANT NOTICE | VLT% doesn't fully capture the human eye's experience with SHRED. Contrast Boosting Lens™ 2.0 Technologies. Unlike the human eye, it misses how the lens's polarization filter cuts glare and how the contrast enhancing formulations boost clarity and vision.

MONOCLE

Are you searching for a versatile ski and snowboard goggle that's extremely flexible and durable while also offering a retro look, an uninhibited field of view, the ability to see details on the snow in all conditions, and outstanding comfort and fit? If so, look no further than the SHRED. Monocle. To truly transform how you experience the mountains, its CONTRAST BOOSTING LENS™ (CBL) and NODISTORTION™ technology (available in select models) enhance contrast and image definition while SHRED.wide™ maximizes field of view.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances image contrast and definition for all weather and light conditions.*

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change.*

SHRED. NOCLOG™ | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

*Available in select models

NASTIFY

If you're looking for a simple yet stylish smaller-fitting ski and snowboard goggle that provides a wide field of vision and unrivaled fit and comfort, then choose the SHRED. Nastify. It features SHRED.wide™ to maximize your field of view, a Grip on Strap silicone strip to hold them securely in place, and Super Anti Fog treatment. For exceptional comfort, it has an especially flexible frame. The Nastify gives you the confidence and control you need to boost your fun on the mountain.

FEATURES:

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SUPER ANTI-FOG | Double lenses combined with a unique heavy duty hydrophilic treatment on the inner lens.

GRIP ON STRAP | A special design on the inside of the strap to ensure the goggles stay in place and don't slip off.

TECH SPECS:

LENS | Cylindrical double lens | 100% UVA-UVB-UVC protection | Super Anti-Fog

FRAME | Width: 165 mm | Height: 100 mm

STRAP | Width: 40 mm | Triple silicone line backing | 2-point slide adjustment system

HELMETS TECHNOLOGY

SMART IMPACT PROTECTION

Powered by SHRED.'s Rotational Energy System™ and Slytech™ Shock Absorption.

To boost your confidence and fun, SHRED.'s Smart Impact Protection System™ effectively combats both rotational and linear forces. Simply put, this reduces harmful forces transmitted to your brain. SHRED.'s Rotational Energy System™ offers the lightest and thinnest solution for addressing rotational forces while Slytech™ Shock Absorption maximizes the helmet's ability to dissipate linear impact energy. Unleash your potential with SHRED.'s Smart Impact Protection System.™

NOTION NOSHOCK HELMET BY SHRED.

ENHANCED WITH

ENERGY SYSTEM™**

- ☑ Protection from rotational forces

SHRED. HEXAFLOW™

- ☑ Enhances linear absorption
- ☑ Maximizes ventilation

RECCO®

- ☑ Avalanche reflector

XT2

- ☑ Odor protection

FIDLOCK®

- ☑ Magnetic closure

The Notion NoShock: a game-changer in the all-mountain and freeride helmet category. Hailed for its **extreme comfort** and **comprehensive protection**, this helmet is redefining standards by **checking all the boxes**. It's not just about protection; it's about embracing the mountain with confidence and style.

NOTION NOSHOCK

If you're a skier or snowboarder searching for a premium helmet that boosts your confidence by offering unrivaled technology to absorb both rotational and linear energy—while also striking the perfect balance between being lightweight and durable—look no further than the Notion NoShock. Equipped with SHRED's SMART IMPACT PROTECTION SYSTEM™, this new flagship helmet pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. Its hybrid construction combines the durability of a hard shell upper with the weight savings of an in-molded lower shell and sidewalls. A unique 3-position switch allows you to control the top, back, and side vents simultaneously. A passive RECCO reflector further enhances your safety while the helmet's Fidlock magnetic closure offers security and convenience. The Notion NoShock boosts your confidence, allowing you to charge harder and amplify your fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

SLYTECH™ SHOCK ABSORPTION | SHRED's patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | 3-position switch controls top, back and side vents simultaneously.

RECCO® | Integrated reflector with passive technology that enables rescue professionals to search for you in the event of an avalanche or if lost outdoors.

FIDLOCK® | Magnetic closure to enhance convenience, security, and efficiency.

HEXAFLOW™ | Three-dimensional EPS with channels to enhance linear impact absorption and maximize ventilation.

TECH SPECS:

CONSTRUCTION | Hybrid | Integrated Slytech™ NoShock honeycomb | 16 vents

TOTALITY NOSHOCK

Are you searching for a lightweight yet extremely durable hard shell ski and snowboard helmet that offers a superior fit and comfort and features unrivaled technology to address both rotational and linear energy absorption? Then the Totality NoShock is the perfect choice. Its SMART IMPACT PROTECTION SYSTEM™ pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. The Totality NoShock gives you the confidence you need to reach the next level, feel like a pro, and have fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

SLYTECH™ SHOCK ABSORPTION | SHRED's patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

SL CHIN GUARD | Fully compatible with SHRED. Soft-Ear Chin Guards. See page 49 for details.

Are you searching for a lightweight ski and snowboard helmet that addresses rotational energy absorption while also providing an unrivaled fit and style? Then look no further than the SHRED. Totality. Thanks to its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—and a ventilation system that maximizes vision and comfort by using 12 vents to pull warm air from your goggles and helmet, the Totality provides the performance, safety, confidence, and style you need to feel like a pro and have fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

VENTILATION | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

SL CHIN GUARD | Fully compatible with SHRED. Soft-Ear Chin Guards. See page 49 for details.

TECH SPECS:

CONSTRUCTION | Hard Shell | 12 vents

SAFETY STANDARDS | EN1077B (Europe snow) | ASTM F2040 (USA snow)

MATERIAL | SHRED. Shield toughened ABS | Super Light EPS

WEIGHT | 460 g [Size S]

IN THE BOX:

1 SHRED. Totality helmet | 1 SHRED. soft helmet bag

SHRED. helmets packaging is 100% plastic free

If you're looking to venture into the backcountry or lap the resort with a superlight in-mold ski and snowboard helmet that offers a superior fit, exceptional comfort, and unrivaled technology that provides both rotational and linear energy absorption, the SHRED. Slam-Cap NoShock 2.0 is the clear contender. Its SMART IMPACT PROTECTION SYSTEM™ pairs SHRED.'s ROTATIONAL ENERGY SYSTEM™ (RES) – which is the lightest and thinnest solution for addressing rotational forces – with the helmet's integrated honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. Reflecting SHRED.'s commitment to continual refinement, the Slam-Cap NoShock 2.0 features an improved fit for even greater comfort. Thanks to the Slam-Cap NoShock 2.0, you can charge with confidence and boost your performance, style, and fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patented technology that manages the effects of rotational accelerations to the head on impact. It allows a relative movement between the helmet and the head through the use of ultra-thin and ultra-light elastic absorption units.

SLYTECH™ SHOCK ABSORPTION | SHRED.'s patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | 3-position switch protected by durable housing.

BASHER ULTIMATE

Are you a ski racer searching for the best-performing FIS-certified helmet that not only has the lowest profile, fits great, and looks amazing, but is also lightweight and offers unrivaled technology to address both rotational and linear energy absorption? Then the SHRED. Basher Ultimate is the perfect choice. Its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—is paired with Casidion™—a nanotechnology-based impact liner that's thinner and lighter than those used in other racing helmets—to create an unparalleled synergy for combating linear and multi-directional forces. Charge with confidence and boost your performance, style, and fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

CASIDION™ | Revolutionary nanotech foam that goes beyond the performance of traditional materials. This absorption element offers protection even in the case of repeated impacts and provides an extraordinarily high impact absorption efficiency, allowing it to be thinner and lighter than other commonly used components.

XT2® | Anti-microbial technology to provide permanent odor protection.

FIS RH 2013 | Certified according to FIS RH 2013 ski racing helmet safety standards.

CUSTOM FIT KIT | An additional set of thicker pads and ear pieces to fine tune the helmet's fit.

SL CHIN GUARD | Fully compatible with SHRED. Hard-Ear Chin Guards. See page 49 for details.

TECH SPECS:

CONSTRUCTION | Tapered Hard Shell with CASIDION™ Nanotech

SAFETY STANDARDS | FIS RH 2013 | EN1077A (Europe snow hard ears) | ASTM F2040 (USA snow)

MATERIAL | SHRED. Shield toughened ABS | CASIDION Nanotech

PROTECTION TECHNOLOGY

ULTIMATE PROTECTION PERFORMANCE

Powered by SHRED.'s Slytech™ Shock Absorption.

Especially thin, light, and flexible, Slytech™ Shock Absorption provides protection you can forget you're wearing—until you truly need it. Developed by SHRED. Co-founder and materials engineer Carlo Salmini while at MIT, this proprietary shock-absorbing material intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. By staying flexible when you ride but hardening when you crash, it offers enduring comfort and unparalleled protection. Drop in with confidence with SHRED.'s Slytech Shock Absorption.

PROTECTION TECHNOLOGY

Slytech™ Shock Absorption Unit

SHRED. | Slytech™ Shock Absorption

- ✓ Developed by SHRED.'s Co-founder and MIT graduate Carlo Salmini
- ✓ Protection from linear impacts
- ✓ Unmatched flexibility and comfort
- ✓ Unparalleled shock absorption efficiency

ENHANCED WITH

You can forget you are wearing it...until you truly need it.

P.S. If you can forget you're wearing it, there's no point not to use it.

NOSHOCK BACK PROTECTOR

If you continually push your limits and are looking for the highest level of protection and enhanced support, SHRED. NoShock Back Protector is just what you need. Their honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION provides the highest impact energy absorption performance (Level 2) and offers uncompromised comfort, flexibility, and ventilation. A 3-point belt also supports the lower back. Thanks to Shred's NoShock Back Protector, you can feel strong, confident, stoked, and in control.

FEATURES

SLYTECH™ SHOCK ABSORPTION | Our proprietary shock-absorbing material intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. Simply put, it stays flexible when you ride but hardens to protect you when you crash.

SLYTECH™ NOSHOCK | Patent-pending honeycomb cone structure that further increases the performance, safety, and comfort of our proprietary Slytech™ Shock Absorption by reducing weight and promoting ventilation.

SKI RACE PROTECTIVE GLOVES

If you're a ski racer looking for a pair of gloves or mittens that protect the back of your hands and your thumbs while providing unparalleled abrasion resistance and durability, the SHRED. Ski Race Protective Gloves or the SHRED. Ski Race Protective Mittens are the perfect choice. Their SLYTECH™ Foam offers unrivaled impact energy absorption around your knuckles and thumb while PRIMALOFT® insulation provides exceptional warmth. The gloves also feature SUPERFABRIC® armor plates on the back of the hand, overlay panels for compatibility with arm guards, a tacky grip layer on the palm, and a nose wipe for additional comfort. Ski with confidence and unleash your potential.

FEATURES:

SLYTECH™ SHOCK ABSORPTION | Our proprietary foam intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. Simply put, it stays flexible when you ride but hardens to protect you when you crash.

PRIMALOFT® insulation | Ultra-fine microfiber insulation that is warm, soft, and lightweight.

THUMB PROTECTION | Strategically placed Slytech™ Shock Absorption pads to protect against skier's thumb

SUPERFABRIC® | SuperFabric armor plates for unrivaled durability and abrasion resistance.

TACKY GRIP™ | Specially formulated leather to provide unparalleled grip on poles.

CARBON SHIN GUARDS

If you're a ski racer looking for unrivaled performance when you clear slalom gates, SHRED. Carbon Shin Guards are the perfect choice. Their SLYTECH™ SHIELD CARBON advanced composite material provides exceptional protection and features ADVANCED GATE GLIDE technology to minimize friction. And to stay in place, they sport SHRED. GRIP PADS. With their unparalleled shin protection and gate clearing speed, the SHRED. Carbon Shin Guards provide the confidence you need to focus on your skiing and feel like a pro.

FEATURES:

SLYTECH™ SHIELD CARBON | A high performance material blend that combines carbon fiber technology and our SLYTECH™ SHIELD CARBON material to create shells that are extraordinarily durable yet lightweight and that provide the best performance at all temperatures.

ADVANCED GATE GLIDE™ | NOFRICTION PTFE™ technology blends PTFE into the SLYTECH™ SHIELD CARBON composite material. This serves as a lubricant, reducing friction and drag between the guard and gates to boost speed.

BELUSHKI

If you love the outdoors and need sunglasses to pursue your passion – with plenty of style – look no further than the SHRED. Belushki. Armed with a timeless design, it features flatter lenses with a base six curve. Made of liquid-cast urethane, these lenses showcase SHRED.'s CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors – no matter the terrain or conditions. The Belushki also features a featherlight NOWEIGHT™ frame and strategically-positioned rubber pads ensure it stays in place. The Belushki gives you the confidence, performance, and style you need to elevate your game and amplify your fun.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances contrast and definition for all weather, surface, and light conditions.

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame's exterior.

SHRED. POLARIZED | Polarizing filters of the highest quality enhance our lenses and reduce glare by blocking all angles of light that are scattered and reflected from surfaces such as water, snow, and ice.

SHRED. NOSLIP™ | Specially formulated rubber pads on the nose and temple tips to further enhance comfort and ensure the frames stay in place while you're in motion.

TECH SPECS:

LENS | Liquid-cast urethane lenses provide exceptional optical precision and impact protection | Base 6 lens provides a flatter look | 100% UVA-UVB-UVC protection | Lens width: 50.1 mm / 1.97 in | Lens height: 42.3 mm / 1.66 in

STOMP

If your life revolves around the outdoors and you need sunglasses that offer exceptional clarity and contrast, the SHRED. Stomp is just what you need—no matter the adventure. Its liquid-cast urethane lenses showcase SHRED.'s CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors. With a base six curve, these lenses provide the featherlight NOWEIGHT™ frame with a flatter appearance. Strategically-positioned rubber pads also ensure the frames stay in place while you're in motion. By infusing a classic design with unrivaled performance, the Stomp boosts your confidence, style, and fun.

FEATURES:

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame's exterior.

PROVOCATOR

If your life revolves around the outdoors and you need sunglasses that offer exceptional clarity and contrast in a design that wraps around your face for additional protection, look no further than the SHRED. Provocator. Its liquid-cast urethane lenses showcase CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors. The Provocator features lenses with a base eight curve and a featherlight NOWEIGHT™ frame with a wraparound design for additional protection. Strategically-positioned rubber pads also ensure the frames stay in place. Boost your confidence, performance, and style with the SHRED. Provocator.

FEATURES:

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame's exterior.

SHRED. PHOTOCROMIC | Photochromic dye technology allows our lenses to automatically adjust to changing light conditions, altering their tint to improve vision and performance. This allows you to transition from darkness to light and back instantly without compromising terrain definition. *Available in select models.

SHRED. CONTRAST BOOSTING LENS™ | Enhances image contrast and definition for all weather, surface, and light conditions.

SHRED. POLARIZED | Polarizing filters of the highest quality enhance our lenses and reduce glare by blocking all angles of light that are scattered and reflected from surfaces such as water, snow, and ice.
